ITINERARY

Day 1 : DAILY DALYAN TOUR FROM BODRUM

Breakfast and Lunch Included

A vast green area with unique properties, Dalyan is a very popular small town not spoiled by buildings. The wonderful 7 kilometer sandy Iztuzu Beach which is accessible by a 45 minute boat trip, is one of the last nesting areas for the Caretta Caretta Sea Turtles. Between May and September, the female turtles come to the beach to lay their eggs, to keep check on them from time to time and finally to take their babies to the sea.

A 15 minute boat trip will take you to the sulphur bath which is a different experience for many people visiting the city. The mud containing sulphur and other elements is said to be good for skin conditions and makes you feel refreshed and revitalized. Also, there is a small spa where you can just relax. Caunos, the ancient city near modern Dalyan, was founded around the 9th century BC. Once it was a Mediterranean city port, but over the centuries the silt from the Dalyan River choked the harbour and today the town lies several kilometres from the sea. Caunos is famous for its rock-cut tombs. These were graves for the kings and important people of the city. Since the pagans of the area believed in resurrection, they put lots of food, money, jewelry and other valuable items in holes at the entrance of the tombs but because of grave robbers nothing is now left today.
