## Day 1 : Antalya Cruise Excursion - Aspendos Theatre And Antalya Old City Tour

Upon your arrival to Antalya Cruise Port, our official tour guide meets you at harbor and drive to Aspendos Theatre with our new brand tour transportation vehicle.

Aspendos Theatre - Aspendos is known for his best-preserved theater of antiquity with seating for 15.000. Still used today, the theater's galleries, stage decorations and acoustics all testify to the architect's success. Nearby stand the remains of a basilica, agora and one of the largest aqueducts in Anatolia.

Aspendus was a major port city in the Roman period with the navigable river of Koprucay. Visitors usually only see the theater on the hillside, however the aqueduct is also recommended. According to ancient tradition, Mopsus founded the city in the 13C BC. In the 6C BC, the Lydian King Croesus took Aspendus. After Cyrus's victory over Croesus in the same century, the city became Persian. In the 5 BC Aspendus minted its own silver coins. Alexander the Great took over from the Persians in the 4C BC. In the Roman period Aspendus entered into good relations with Rome.

Antalya Old City ( Kaleiçi ) - Kaleici is a small historic part of Antalya's modern city, also known as the Old City of Antalya. In history it was once the sprawling modern Roman town, then the Byzantine Empire, then Seljuks, and finally the Ottoman Turkish town. The Hadrian's Gate (or Hadrianus Gate or The Three Gates is a triumphal arch which was built in the name of the Roman emperor Hadrian. Antalya's broken wonder is the Broken Minaret of the Korkut Mosque, which itself was built originally as a Roman temple in the 2nd century AD, and thus did not have a minaret at all. H?d?rl?k Tower is a landmark tower of tawny stone in Antalya, Turkey, where Kaleiçi meets Karaalioglu Park. It is believed to be built in Hellenistic era on a square plan and later turned into circular tower in 2nd century AD and was either used as a fortification or a lighthouse in the past. All the streams of the region aim at finding their way into the Mediterranean and they pour down the slopes of the Taurus, sometimes overland sometimes underground and reaching their destination, result in lovely waterfalls, of which there are more than twenty.
